

Mission Statement

Our Purpose

- Is to provide excellence in all areas of service to our clients

Our Team

- Is trained and motivated
- Has integrity, personal responsibility, and commitment
- Performs to our high standards with willingness and enthusiasm

Win + Win + Win

- Our clients are very satisfied with our company
- Our team has a great place to work with fulfilling careers
- Our company continues to grow and be successful

Why Choose Us?

We are established

- Greg started the business in **1974**, with a 1968 Ford station wagon. Since then, the company has grown to a million dollar (+) company.
- We are a member of the Better Business Bureau, with the highest rating of A+.

We are qualified

- Our company prides itself on our commitment to our clients.
- Most of our new business comes from satisfied clients and their referrals to friends and neighbors.
- We solve all home comfort problems, including air infiltration, humidity, zoned temperature control, and water heating.

Why Choose Us?

We are certified

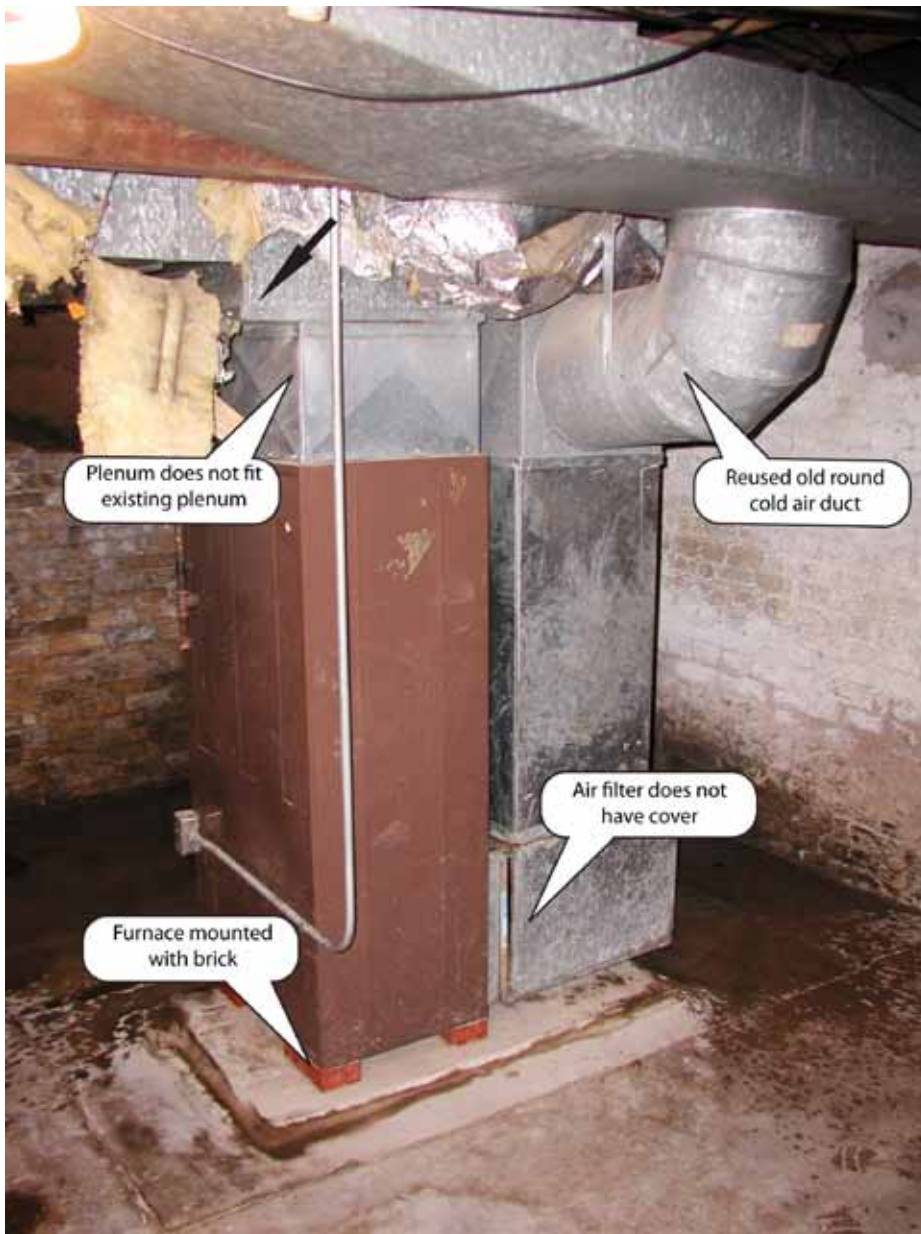

- We are licensed, bonded, and insured.
- All installation and service technicians are factory-trained.
- All service technicians are NATE certified.

We are knowledgeable and dependable

- We offer a full range of EPA Energy Star approved products.
- We attend continuing education classes, to keep up to date.
- Our employees are clean cut, courteous, and uniformed.
- We are on call 24 hours a day, for our existing clients.

Why Choose Us?

Their installation, the **BEFORE** picture.

Do you know, that, your furnace must be set-up correctly, to ensure proper operation and high efficiency performance. This is your contractor's responsibility. Looking at the limited skills, shown for this installation, it is unlikely, that this furnace ever ran at peak performance, since 1985.

Why Choose Us?

Our installation, the **AFTER** picture.

Not only is this furnace installed properly, it was also set-up to run most efficiently for this house. Set-up includes, testing and adjusting the following:

- Gas pressure
 - Differential pressure
 - Fan speed
 - Temperature rise
 - Drainage system
- All of which Gregg Heating, always tests and adjusts.

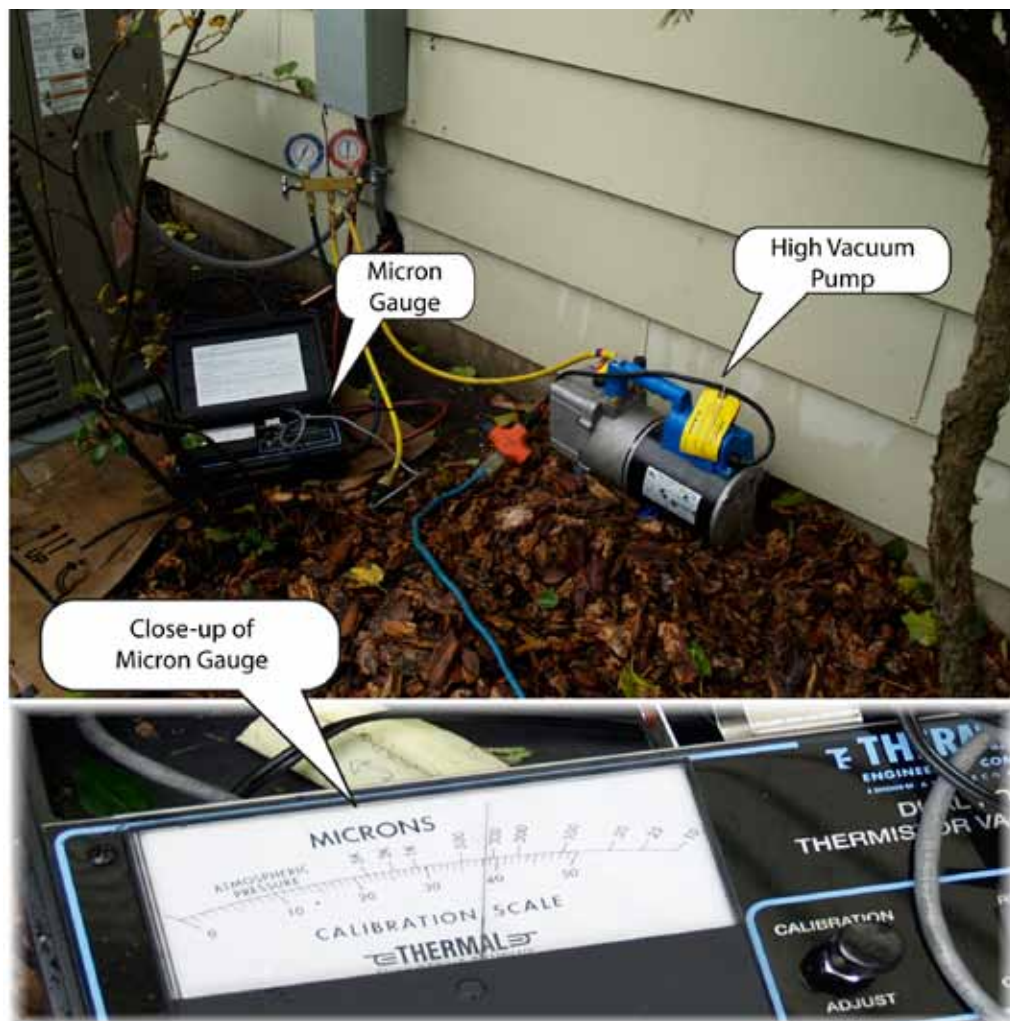

Why Choose Us?

Here is a proper installation technique.
This is what Gregg Heating always does.

- Purge system with dry nitrogen
- Perform high pressure nitrogen leak test
- Assures you, a leak-free air conditioning system

Why Choose Us?

Excerpt of an air conditioner's installation instructions.

10. Evacuate the vapor line, evaporator, and the liquid line to 500 microns or less.

- Putting your air conditioner into a deep, monitored vacuum,
- assures a totally pure, leak tight, & clean system, which will
- give your air conditioner longer life, and trouble free operation
